

## The President's Ball At The Town Hall Was A Big Success

The Town Hall was filled to capacity Thursday evening of last week for the annual President's Ball which was the third year of its observance. The hall was splendidly decorated with the American flag displayed on the stage and Marine signal flags over the dancing floor which were loaned for the event by Mrs. William J. McRoberts of Brooklyn, N. Y.

Andy Canedy's favorite orchestra were on the stage and rendered a fine program of dancing music and choral numbers. Both modern and old-time dances were on the program. The ball was opened with a grand march led by John Callahan and his daughter, Frances. During the evening, there was a program of entertainment between dances. The Hill Billy orchestra from the Northfield CCC Camp 1153 gave several selections and some of its artists rendered solos. Enid Miner and Gloria Savecheff gave two dancing numbers. A radio was installed by George Kidder to enable the dancers to hear the President's greetings.

Refreshments in the lower room were in charge of Mrs. Wm. Shattuck and Mrs. Charles Blossom.

Mr. William H. Dalton was at the door and Mr. Lewis Wood was in charge of the box office. Constable Harry Haskell was on duty.

The affair was a big success and chairman Lawrence D. Quinlan and his committee of workers deserve much credit for their part. After all expenses are paid there will be a balance of about \$35 to be turned over to the local Infantile Paralysis committee. Nearly \$15 will go to the Warm Springs Foundation Fund. The total monies now in the hands of the local trustees which consists of Mr. William F. Hoehn, Mr. Harry Gingsas and Mr. Ross L. Spencer as treasurer will be nearly \$80 and this fund is available to our local Board of Selectmen for any local infantile paralysis cases.

## Work Has Begun On Vernon Underpass

Workmen are busily engaged in building a trestle to carry the tracks of the C. V. Railroad over the new underpass to be constructed just south of the present underpass about a mile north of South Vernon on the Brattleboro road. Just as soon as the trestle is completed the excavation and building of the retaining walls will be begun. The railroad carries all south-bound traffic of both the Central Vermont and Boston & Maine lines between Brattleboro and East Northfield, where the roads cross. Twelve railroad men have been building the trestle. The contractor for the underpass construction has been employing eight to ten.

Three state officials were on the site recently to check up on the employment roll, labor for the job being supplied from the U. S. employment bureau lists.

The highway will be open for auto traffic and the old underpass will be used until the new one is completed.

## Northfield Hears St. Bernard Monastery

One of the famous Saint Bernard dogs on a mountain look-out point at the celebrated monastery in the Alps of Switzerland.

Several persons in Northfield who have visited Switzerland and have crossed over the St. Bernard's pass in the Alps were much interested in the broadcast last Sunday afternoon which brought many remembrances to them of the St. Bernard Monastery, its wonderful bells, the chant of the monks and also the howl of its wonderful herd of St. Bernard dogs. The announcer stated that winter lasted nearly nine months on this 18,000 foot level, that at present there was 22 feet of snow on the ground and it was very cold. The reception of the program was very good.

The monastery is world famous for the fact that the monks maintain a large kennel of St. Bernard dogs which patrol the blizzard-swept passes in search of lost or injured travelers, and many rescues have been reported. The Prior of the monastery sent his greetings over the radio and members of the monastery sang a Gregorian chant. The bells as they rang in unison came loud and clear. The broadcast was at two o'clock over the NBC chain on the Magic Key program.

Fay Smith, were in memory of Mr. Dwight L. Moody. Mrs. W. H. Gibel gave a most interesting resume of the first three chapters of the study book for the second half year "Toward A Christian America."

The final prizes in the Morgan gram contest have been awarded. First prize of a smoking stand goes to Mary L. Barrows, and second prize, a can of polish goes to Leona Suttie. ## FORTNIGHTLY

Last Friday afternoon the club continued its journey through a part of England with Mrs. Morse. We linger awhile in Yorkshire with its mountains, dales, sea-coast; its odd dialect, interesting people, not to mention its famous pudding. Foxglove five feet tall, its moors that are now kept for game preserves principally. Castles and abbeys wherever you go.

We got a glimpse of Coxwold where Laurence Sterne many years ago wrote his "Tristram Shandy" and "Sentimental Journey." Literary associations everywhere you go in England of course. The Brontes came from near Leeds; J. B. Priestly from Bradford. Seems odd to hear of walled towns in England, but there are, York and Chester.

From Yorkshire the Morses went on to Lincoln, then to Ely, and then on to Cambridge, where Prof. Morse made some interesting acquaintances. We heard about the new library there, and of the delightful walks, bits of Cambridge history. The library of Pepsys, the famous diarist, is in Madeline college.

From Cambridge to London, a stop at charming Winchester, to Bournemouth where a delightful walk along the cliffs was enjoyed, then on to Southampton where the boat for home was waiting. These talks of Mrs. Morse's have been greatly enjoyed by Club members, and they are grateful to Mrs. Morse for her generosity in giving them.

Club members are asked to note the meeting on Friday of the week at Alexander Hall. Dr. Mary Dole speaks on "My Hobby" Next week at the Homestead, Friday, February 14, at 7:30, Mrs. L. W. Norton conducts the study on "Period Furniture."

## HERMON NEWS

Hermonites were addressed from the pulpit last Sunday morning by Eugene P. Link, teacher of history, on the subject of the shortcomings of the present educational system. He said that the present system clings to the Platonic ideal of the permanence of ideas, whereas the world is constantly changing. He condemned the practice in use by today's teachers of "pouring knowledge into the students' heads" as discouraging thought and constructive criticism.

At vespers Erdman Harris, professor at Union Theological Seminary, was the preacher. His text was concerned with prayer, and his sermon consisted of personal reflections on the proper use of prayer. "To pray properly," he said, "one must be in tune with the spirit of God." He went on to say that prayer should be addressed as a desire to "make me" rather than "give me."

Mount Hermon observed Wednesday the annual tradition of Founder's Day. Beginning in the morning with a chapel service addressed by Dr. John McDowell, '90, who recalled some incidents in the life of D. L. Moody throwing light on the wonderful character and peculiar business ability of the man. Following the chapel service there were intramural ski races, including cross-country, slalom, obstacle, and jumping events. The afternoon

## Seminary and Hermon Observe Founder's Day Have Winter Sports

The 99th anniversary of the birth of Dwight L. Moody, founder of the Northfield Schools, was celebrated at both the Seminary and Mount Hermon Wednesday by special chapel services, at which the principal speaker was Dr. John McDowell of New York City, a graduate of the class of 1890, Mount Hermon, and one who as a student knew D. L. Moody well. Richard L. Watson, '91, of New Haven, read the Scriptures and prayer. Dr. David H. Porter, Headmaster, presided. At the Seminary, Mira B. Wilson, principal, presided.

Winter Carnivals were the order of the day at both schools. Ski racing and jumping, hockey, and snowshoeing featured the programs. The varsity played Deerfield in hockey in the afternoon, and at the Seminary all the students went for the traditional sleigh rides.

Dr. McDowell, in his address, stressed the influence of Moody upon his own generation and those who have followed him. Prof. Henry Drummond of London said of Moody that in his lifetime "there is perhaps no more truly great man living than D. L. Moody. America possesses at this moment no more extraordinary personage."

"D. L. Moody lives today," said the speaker, "in the innumerable numbers of men and women all over the world whose lives he touched with his inspiring and transforming message; in the institutions which he established for human welfare; in the books which he published; in the hymns which he inspired; in the movements which he inaugurated for human service; and in the outstanding leaders of many of the mightiest movements of the last three decades of the 19th century."

The 100th anniversary of the birth of the founder will be celebrated in 1937 in a world-wide fashion. Dr. McDowell has been chosen as chairman of the executive committee for this centenary. Other leaders who will cooperate are Dr. John R. Mott, Dr. Robert E. Speer, and Dr. Fred B. Smith. Over 5000 alumni and alumnae of the two Northfield Schools will join in the reunion at June, 1937.

## Will Visit Many Northfield Clubs

Mr. Albert E. Roberts, executive secretary of the Northfield Schools and Rev. Lester White, Chaplain of Mount Hermon leave this week to attend a series of meetings and dinners of the Northfield-Hermon clubs which will take them to the Pacific coast. About thirty clubs will be visited. Miss Fanny Hatch, secretary for Northfield Seminary, is also planning her winter tour of the Northfield clubs. Dr. David R. Porter, Headmaster, will attend the annual banquets at Worcester, Washington, and Baltimore.

The correct word in the "Cryptograph" as published in last week's Press was "shortage."

was marked by the interscholastic hockey game between Hermon and Deerfield Academy in which Hermon was the victor, 3-0. In the evening a sumptuous West Hall banquet was enjoyed, and followed by the showing of the Laurel-Hardy comedy success, "In Bonny Scotland."

## P. - T. A. Tonight Gives Senior Benefit For Washington Trip

Christine Coleman Ostberg, who gives a reading of "The Barretts of Wimpole Street" in the Town Hall this Friday night, is a favorite with Northfield audiences, having filled several engagements at the Northfield Hotel. This entertainment, which the Parent-Teacher association is sponsoring for the benefit of the High School senior class, is sure to be of interest, not only because of the main part of the program, but because of other talent. Mrs. Donald Williams and Irving L. Lawrence will give two groups of songs, a treat which is always appreciated. In addition, several members of Miss Bagley's dancing class will offer a short program. Gloria Savecheff and Enid Miner will do a Russian dance, Janet Kehl and Winona Robinson will be seen in a skaters' ballet and Miriam Hunt, June Bolton, Doris Miller, and Ruth McGowan, will give an eccentric tap dance. Helen Savecheff will play the violin.

Members of the High School are busy with the sale of tickets, and the girls are planning to sell candy between the acts.

## Elder Elected President N. E. Holstein Ass'n

Mr. Thomas E. Elder who makes his home at Alton, N. H. and was a former member of Mount Hermon faculty has been chosen as president of the New England states Holstein-Friesian association at the annual meeting of the organization held recently in Springfield. Mr. Elder is also a member of the Board of Directors of the National Association and is frequently called upon as a judge at exhibitions and expositions of Agricultural Associations. Mr. Hugh Morrill of Whately was elected secretary and Senator A. P. Bigelow of Middlesex, Vt., is treasurer.

## Feed The Wild Things

The deep snow has made it difficult for the birds and squirrels to find their customary food. At many homes chick-a-dees, blue jays, snow buntings, gray squirrels and pheasants come daily to get the food that is put out for them. Grain, nuts, crumbs and suet are relished by the denizens of the field and forest. Sand or fine gravel is sadly needed by the birds, who must have grit to grind up their food and it is almost impossible for them to find it when the snow covers the ground so deeply. These little wild things get to be very tame and it is no end of fun to watch them at their feeding places.

## WANDERLUST

It's the wanderlust that's in me, A lust for the winding trail, A lust for a care free valley road, Where laughter and youth prevail, A road that leads to the east or west, Up to the rising sun, A road that leads to the north or south, When day has just begun.

It's the wanderlust that's in me, A lust for the open fields, A lust for the woods and dreaming streams, And a bed of moss that yields, A bed of moss and a maple shade, And the thrill of an early thrush, A bed of moss and a spiffy breeze, And a rabbit in the brush.

It's the wanderlust that's in me, A lust for the open sky, A lust for the sun, the wind and rain, And the haze where mountains lie, A haze where mountains meet with God, And a road that never ends, A haze that lives its secret life, Where God and the tramp are friends.

Many from Northfield are expected to be in attendance.

### The Coldest Spot

Credit for the coldest spot in the United States went to Northfield, Vt., last Thursday, when officially the thermometer retreated to 26 degrees below zero. That was cold and the severe cold weather in Northfield, Mass. was also seriously felt during the past week as the month of January made its exit. The thermometer registered an average of about 15 degrees below here. That's cold enough surely for anyone.

### Had Town Elections

Seventeen towns in Franklin county held their elections last Monday at the same time our meeting in Northfield was in progress. The following were the towns: Buckland, Charlemont, Colrain, Conway, Erving, Hawley, Heath, Leverett, New Salem, Northfield, Orange, Rowe, Shelburne, Shutesbury, Sunderland, Warwick, and Whately.

### Requested Funds Granted Library Gets Oil Burner Health Unit Refused

The Town Meeting held last Monday on a bitter cold but otherwise pleasant day brought out a goodly attendance of voters, perhaps not so large as in recent previous years but a gathering that allowed matters to go along smoothly without even once ruffling the Moderator's brow. The election however, seemed to assume more real interest and the fact that the polls were open until six o'clock brought a late afternoon rush to the polling booths. Several upset in the state resulted, Alexander for Tax Collector was defeated by Slate. Miss Merriman for Library Trustee had a real "walkaway"; Charles S. Tenney replaces Edward J. Morgan in the Selectmen and retains his job as Assessor. For Tree Warden, Williams defeated Mildred Addison made a surprising run but was defeated by 24 votes by L. R. Alexander. The appropriations were as follows: Town officers, \$4,585; schools, \$32,650; library, \$988; public welfare, \$7500; old age assistance \$15,000; highways and bridges, \$8650; sidewalks, \$750; fire department, \$750; police, \$300; street lights, \$3000; tree warden, \$200; town debt, \$3240; Memorial Day, \$125; soldiers' relief, \$1000; snow removal, \$300; moth suppression, \$700; cemeteries, \$400; contingent account, \$1800; repairs to town hall, \$1530; repairs to water hose, \$200; reserve fund, \$2000; community nurse, \$1225; road machinery, \$750; fire insurance, \$1300; inspection of meat and animals, \$325; porcine bounty, \$10.

It was voted to raise \$1000 for used in any PWA project and \$100 was voted for the observance of D. L. Moody's 100th birthday, February 5, 1937. Also \$600 was voted for an oil burner in the library.

The article for appointment of a community recreation director and the one for purchasing a new tractor were defeated. The latter was lost on a vote of 92-99. The total appropriations were \$85,152, considerably above the \$81,165 of last year.

For the town election the polls remained open until six o'clock and over 500 ballots were cast. The result was as follows:

Town Clerk, Josephine Haskell 461; scattering 1, blank 44. Treasurer, Leon R. Alexander, 253; Mildred Addison, 229; blank 27.

HEY MOTORISTS!

ROMANTIC  
AND  
DEADLY GLOAMING  
By THE LITTLE ENGINEER

POETS rave about the gloaming. So do ambulance doctors and coroners. In an apple orchard in June twilight makes the heart go pit-a-pat. On a busy road full of high speed traffic it frequently causes the heart to stop entirely. Twilight is the most dangerous motoring time of day. There are two reasons for this. At gloaming things are neither black nor white. They are a dull vague gray in which shapes of pedestrians, other cars and road obstacles are fuzzy, indistinct and hard to dodge. At this time of year twilight comes just when people are pouring in droves out of stores, offices and factories and galloping home to dinner by car, bus or foot. Hazards are multiplied by thousands.

The wise driver puts his speed thoughts in reverse at twilight and inflates his bump of caution. He takes no chances. When he gets home his nerves are in good shape to help digest his vittles and he hasn't caused some other driver or walker not to reach home at all.

Another thing—be darn careful how you signal when driving through the dusk of evening. Your waving arm is hard to see, even if you've taken the wise precaution to wear white gloves. Make your signals carefully and emphatically, otherwise the driver behind may not be at fault if he crashes into the back of your car or sideswipes you and lops off the arm which has worked so hard for you all these years.

## New Greenfield Apartments Equipped With Electric Ranges and Refrigerators

## COMPACT COMBINATION UNITS INSURE GREATEST KITCHEN COMFORT

A feature of the new Weldon Apartments on High Street, Greenfield are the modern, compact all-electric kitchens.

To save room, GE Combination Electric Range and Refrigerator units were installed. Users of these units will appreciate the convenience and cool comfort of electric cookery with its clean, flameless heat. And without taking a step, they can reach into the refrigerator where their food is kept fresh, winter and summer.

## Make Ice Cubes and Roast Chicken in Same Electric Units

It is a rather startling tribute to the efficiency of electricity to consider these combination units which can roast a chicken within a few inches of a tray of ice cubes. No fuel is wasted.

## A PENNY PER MEAL PER PERSON

That is the normal cost of electric cookery in the average family—one cent per person per meal. And one penny will run your electric refrigerator for an average of 4½ hours.

## Appreciation

To the Editor,  
Northfield Press,

In behalf of President Roosevelt, I want to thank everyone who participated in making the Northfield Birthday Party a great success. By your patronage a substantial sum was realized, which I have already turned over to the local Infantile Paralysis Committee. This money will be held in trust for the aid of infantile paralysis victims should there ever be any in Northfield. We danced and made merry on the 30th, for one night, and from that party perhaps we may give relief to those suffering from that dread disease which twists human bodies and causes untold suffering. Thirty per cent of the money realized has been sent to the National Headquarters. Intensive research shall be carried on by the most prominent doctors of the world, in hopes that a cure or a preventive for this horrible disease may be discovered.

In spite of a few critics in Northfield who have always delighted in exaggerating some unfavorable incident, I want to thank our Constable, Mr. Harry Haskell, for the fine order that he kept. I thank Mr. William Walton and Mr. Lewis Wood for the splendid work they did at the door. I thank Mr. Henry Johnson who gave his entire evening to keep the hall decorated with the various colored lights. I also thank Miss Francis Callaghan, Mr. John Callaghan, Miss Gloria Savcheff, Mr. Leon Dunnell, Miss Enid Miner, Mr. Harry Gingras and helpers, Mr. William Hoehn, Mr. George Kidder, Mr. Joseph Field, and all the splendid boys from the C. C. Camp. Everyone of you helped materially in running this dance. I cannot thank you enough for your efforts and co-operation. It was a pleasure to participate in this great work.

I trust that Northfield will each year present a similar program for some worthy cause. Even we who are well need some sort of social event. We are measured in this life by what we can give, not what we get.

Sincerely yours,  
LAWRENCE D. QUINLAN  
Chairman

It is suggested that all Scouts attend their own church service Sunday in a body and in uniform. Every Scout should plan to wear his uniform to school one day during Scout Week.

Our local troop is planning to attend the Special Court of King Arthur and cordially invites all interested in Scouting to attend. Transportation will be furnished, but the Scoutmaster must know by Monday, Feb. 10, how many are going.

## Skill of Royal Coach Builder Lent to Aid Crippled Children

"TRULY A FAIRY COACH!" This is the way Colleen Moore, motion picture actress, characterized the Napoleonic model that has served as the project of the Fisher Body Craftsmen's Guild competitions since 1930 when officials of the General Motors-sponsored educational foundation offered to build a replica of it to fit her famous doll house, a veritable fairy palace valued at nearly \$500,000, which is now on tour of the country for the

benefit of the nation's crippled children. She is shown here discussing the plan with Walter Leuschner (left), formerly the head of a family-owned concern that began building state carriages for European monarchs during the reign of Frederick Wilhelm III of Prussia and designer of the coach that thousands of boys have reproduced for entry in the competitions, while Frank C. Riess, technical director of the Guild, makes notes.

## EDITORIAL

The fears of inflation are adding fresh disturbances in high circles in Washington. There must be more bond issues, more taxes, more printing-press money or more devaluation of the dollar if the new Congress makes the huge appropriations that are demanded. Nobody seems to know just which road the politicians will take—but there is good reason to expect "inflation."

Alice Roosevelt Longworth, leading lady in political society of Washington ever since she used to cut capers in the White House when her great father was President, writes a piece for the papers every day. Heretofore, she has always maintained silence, never submitted to interviews, and her power has always been among the rich mysteries of "invisible government." As usual, she puts lustre and brilliancy into her work as one of "we" newspaper writers. Her stuff is pungent, sarcastic and very human. Everybody in Washington seems to like it, and her cousin still welcomes her to the White House.

The railroads of the country appear to have been forced to resist control of their important affairs by the Government, while at the same time they have been borrowing from the Federal treasury until their indebtedness is approximately \$500,000,000. Railroad executives have been slow in learning that you can't talk back to the money-lenders. Railroad securities have become poor investments, and about one-quarter of the entire mileage of the lines is in the hands of receivers and trustees. It is not strange that one often hears the prediction, in the National Capital, that the Government may take over the railroads.

Many moving pictures promoters and radio advertisers offer as an excuse for their gross, inept pictures and programs that the taste of the people is such that it does not appreciate higher entertainment. It is doubtless true that some prefer the lower types of entertainment, but constant fostering of such types lends a sanction to a laxity to good standards which is quickly grasped by the weak and avaricious-minded, with the consequence that the will of the weak and avaricious tend to lower the level of general culture.

## FAITH

Faith is one of the greatest things in the world. It is the first of the familiar, old trilogy, faith, hope and charity, and the order of the words are not by accident, for faith must exist before either of the other two are possible. It is the root of hope and of love. Take faith from the world and there wouldn't be much left. It would sever every tie that binds man to his brother or to God. It would break down his own ego and will-power. It would reduce civilization to a jelly-fish sort of existence that

would make human achievement impossible.

When a child loses faith in his parents, he is no longer theirs, except by accident of birth. Any allegiance he may render is but a surface respect, born perhaps by habit or a sense of duty. When friend loses faith in friend, the doors of the inner shrine close automatically, locking themselves against a possible enmity more deadly than death itself. For the soul that has lost faith in one once loved, finds itself endangered by the very nakedness and defencelessness in which it had formerly gloried. With faith in his friend, he had delighted in placing himself and all that he was without reserve in the power of him who was more than brother. But with faith destroyed he must needs frantically throw up the broken barriers lest he whom had inadvertently been allowed to come too close, should do him harm.

When man loses faith in himself, he loses the power to fulfill his dreams. The splendor and glory of living are no longer his. He is a creature beset by doubt and accompanied by fear. His feet falter along the smoothest way as if through mire or quicksand. His mind is haunted by nightmares whether the day be dark or sunny. Without faith he is but a pitiful bit of life, crushed and beaten within his own secret citadel.

When a man loses faith in God he has lost all; his home, his friends and himself, and he has gone a step farther, he has renounced all of creation. He has nothing within himself, nothing left in the earth or heaven to arouse hope or affection.

But is it possible for man to sink so far down that some spark of faith does not still persist? Is deep enough in the lives of the most forlorn and you will find something of faith to which he still clings. He may deny God somewhere deep within himself is a faith in a power greater than his own sorry reason. He may deny all human-kind but somewhere within he still lights a candle before a secret shrine.

Faith is the foundation of man's moral greatness and lack of faith is the quicksand that destroys him. Love is the flower of living, but faith is the root. Love glories in the sunlight, but faith accomplishes its task in the darkness and silence underground. Love is the perfected ending, but faith is the beginning. Faith is love in infancy. It is the germ of love planted deep in the darkness of human hearts awaiting the rain and the sunlight.

—Blanche I. Corser

## "Rose Marie" Movie At Brattleboro

No matter how much you liked "Naughty Marietta," that musical sensation of 1935, you're sure to like "Rose Marie" even more. Again co-starring Jeanette MacDonald and Nelson Eddy, this production will open at the Auditorium Theatre, Brattleboro, next Monday for a week's engagement. Like its forerunner, "Rose Marie" was directed by W. S. Van Dyke and produced by Hunt Stromberg, who combined their talents to give this picture one of the finest productions to come out of Hollywood in a long time. Replete with haunting music, a tender love story, magnificent photography and backgrounds, it is truly the film sensation of the year.

Don't miss seeing this picture. Manager Latchis will be happy to greet his Northfield friends and patrons.
